

**“NSI has very strong experience in the Indian Gaming environment from working for many years with Mohegan Sun and other Indian Casinos.”**

**David Keaton, IBM eSystems Manager**

Mohegan Sun in Montville, Connecticut has taken full advantage of NSI’s high-level business partner connections to control costs, increase security and plan for future growth.

Along with providing hardware and software products, and a wide variety of consulting services, NSI provides maintenance and repair services (on-site & off-site) for all Information Technology at Mohegan Sun, including equipment unique to the gaming and hospitality industries.

NSI also provides valued-added Procurement Services to Mohegan Sun, assessing operational needs, researching best available options and acquisition, as well as sourcing hard to find items.

Maintenance Contract Management is another customized service provided to Mohegan Sun. NSI manages all IBM maintenance agreements for the casino, simplifying an otherwise complex process to one consistent and predictable monthly bill. NSI even finances the maintenance agreement transactions for Mohegan Sun. Through the use of a special Web portal the casino’s IT Department is able to view the current status of their many IBM maintenance plans and other pertinent data.
